## INTRODUCTION

Today we are living at the edge of a new exciting world where we are experiencing huge changes in the social, economic, political and technological environment. During this change, plenty of opportunities wait only for those only who are prepared to face challenges. To reap the highest benefit of transforming circumstances and prospects, we need to understand the trend and opportunities and take the leadership as an entrepreneur.

## WHY DE

Every year, 46 million new workers join in the world's labor force and many of them are from developing countries. The global youth unemployment rate is 12.6% in 2013 and the rate may increase to 12.8% by 2018. As long as the rate of unemployment is increasing, it will increase regional disparities; and improvements in the world economic order will offset by youth unemployment.

## ELIGIBILITY
